Personal, Popular, and Public Trends

The name Science Park, and therefore Charger, has always had a certain connotation. It's one specific gym teacher, who shall remain nameless, likes to say "We are the best of the best." And although Science Park, and specifically the Class of 2018, does contain some of the best students, athletes, musicians and artists in the area, we are also the best of the best at other things. Like staying up until 4 a.m. to finish assignments, and doing our homework at lunch or in class, because homework is definitely not meant to be done at home.

Other attributes include disagreeing about what color the class should wear to pep rallies, starting Emdo drama, NOT selling hot dogs, refusing to wear uniforms, keeping Ms. Garripoli entertained by lingering in the senior hallway, falling asleep in class, hanging out in Ms. Minudas' room, funnelling every Townsend assignment ever, and wearing our senior shirts even though most of us agree we don't like them.

Some of our antics might aggravate staff, but these are the best things about us. It is what makes the Class of 2018 possibly the best class that Science Park has ever seen. Yes, other classes have not worn uniforms and not done homework at home, or at all, but the Class of 2018 "represents our class with class." Whatever we do, we do it the best, good or bad.

In reality, the Class of 2018 is the best class because we are able to get things mysteriously accomplished, no matter how disorganized we appear. We are the best class because in spite of our procrastination, we've managed to do enough to get accepted into some of the best schools in the country. We are the best because despite being separated into small groups of friends, we managed to write for events like Senior Pajama Day and pep rallies.

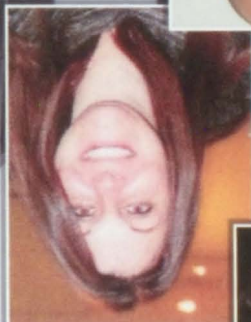

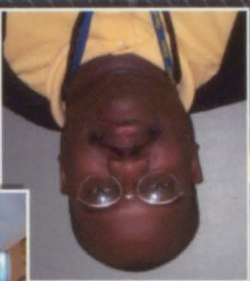

The Class of 2018 has redefined what it means to be a Charger. Yes, we are the Chargers of the future. We are first generation college students; we are future engineers, philosophers, teachers, doctors, lawyers, psychologists, soldiers, writers, and anything we dream.

Science Park High School Staff

To the Class of 2018,

you simply amaze me! From your academic accomplishments to your extracurricular achievements, your energy and spirit has been nothing short of impressive. Whether it be traveling the world for a study abroad opportunity or laughing alongside Joe Biden right in our own backyard, your collective can-do attitude has driven you to great heights. Things I never dreamed were possible to achieve as a teenager, you have accomplished. I admire your passion, your perseverance, and your never-say-die attitude. Class of 2018, may you never, ever, let anyone tell you that you can't, because I am here to remind you that you can. You all are amazing students and human beings, and you will always hold a special place in my heart.

To the Class of 2018:
Landing on the moon has been done, but the
Mission to Mars has openings. Dare to pursue it.
Public service has few public rewards. Choose to
serve anyway.
Caring about the planet is cool. Be hot-tempered
when people trash it.
Art affirms your humanity. Create it. Witness it.
Support it.
Be authentic. Be bold. Be truthful. Be kind. Risk
everything for your principles.
Science Park holds you in high esteem. Let
history prove us right.
With love and all due respect,
Mrs. Gaylord

Congratulations to you, the class of 2018!

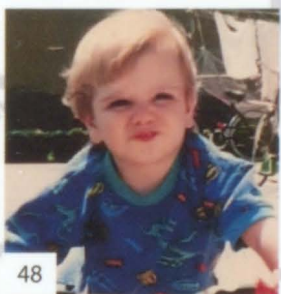

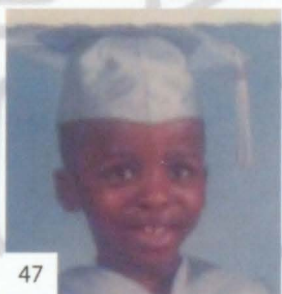

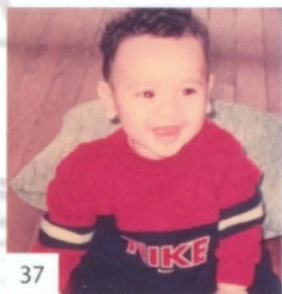

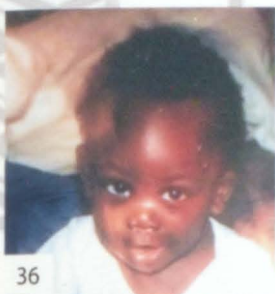

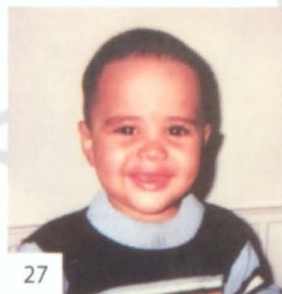

The time has finally come for you to spread your wings and introduce yourself to the world. I am confident that the knowledge and skills you have acquired here at Science Park have prepared you for the rigors of a college program of study. Be firm in your commitment to academic excellence; be kind to others; build upon your experiences here to go out and make this world a better place.

We can never be sure of what the future holds for us. But I can say this with certainty: Your time here at Science Park High School has provided you with all the necessary tools to shape a future filled with success.

Best of luck!

GIRLS VOLLEYBALL

These girls started off on the last freshman team Science Park has had and have shown tremendous growth since then. Although never having a steady coach, they were able to persevere and use one another as a steady support system to achieve the victories they have earned the past four years.

Shout out to coach Alana and coach Tommy for sharpening their skills and for making these seniors' last season their most memorable one!

BOYS BASKETBALL

The accolades achieved by this group of young men are a resemblance of what super heroes do... Achievements out of this world.

Words by Coach Malih

Science Park's very 1st SUPER HERO SCHOLAR ATHLETES

These young men came in as freshman and were forced to play varsity... super heroes right from the start! The first season was a character builder for the entire program while these freshman withstood the weight of the entire school watching as they gained experience. Four years later these same young men achieved an outstanding season with a record of 19-7... only superheroes can come back from defeat and achieve GREATNESS!

Hakeem Ceesay aka MR. PRESIDENT,
1,000 point scorer, truly has vast heroics.
Exemplary.

Ezinne Kalu

2018 Hall of Fame Inductee

The girls basketball team had a surprisingly fantastic 2017/2018 season as co-champions of the Super Essex Conference Freedom Division. Star Garry, 3-year senior, was a contributing factor in the year's winning season. The team was also excited to retire former player and basketball professional Ezinne Kalu's jersey in December. The team will move up to a higher division for the 2018/2019 season as they build on the success of this year.

The background of the page features a light blue gradient with several dark silhouettes of graduates. Some are wearing caps and gowns, while others are holding diplomas or raising their hands in celebration. The silhouettes are scattered across the page, adding a celebratory and academic theme to the inspirational quotes.

"It's funny how we outgrow what we once thought we couldn't live without and then we fall in love with what we didn't even know we wanted. Life keeps leading us on journeys we would never go on if it were up to us. Don't be afraid. Have faith.

"Your time is limited, don't waste it living someone else's life. Don't be trapped by dogma, which is living the result of other people's thinking. Don't let the noise of other's opinion drown your own inner voice. And most important, have the courage to follow your heart and intuition, they somehow already know what you truly want to become. Everything else is secondary."

Steve Jobs

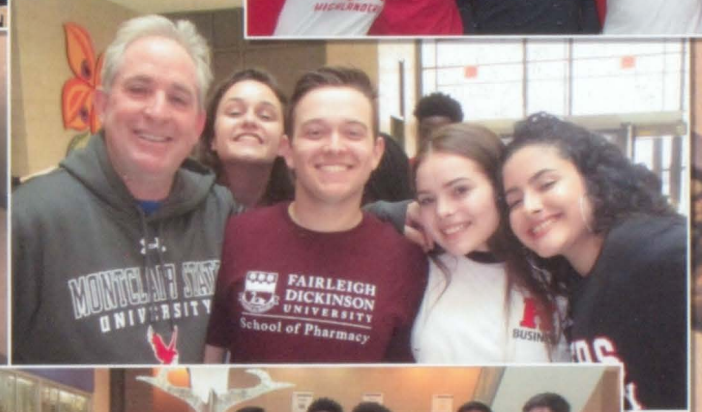

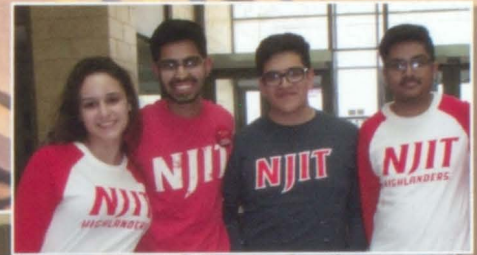

"You're only given a little spark of madness. You mustn't lose it."

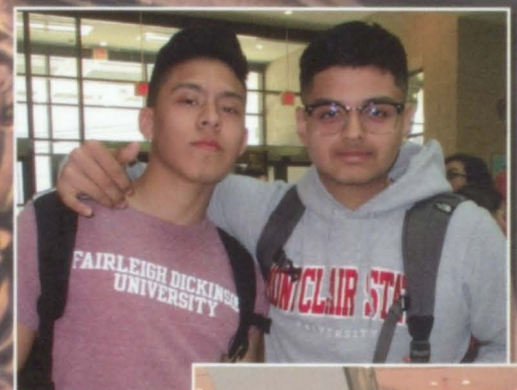

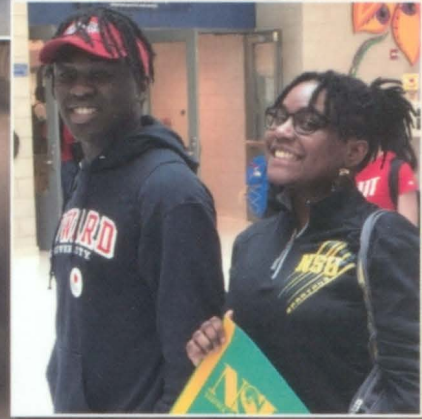

Robin Williams.
